UD7006 UNIVERSAL BLU-RAY HD PLAYER

The UD7006 is our very first 3D capable Blu-ray Disc player that combines HD surround sound with 3D picture. But not only that, it is also DLNA1.5-certified, which means it can stream audio and video stored on your home network. The network connectivity is also your direct link to thousands of films and movies on YouTube (requires software upgrade). Also, to ensure top audio quality, it includes a special decoder for HD sound formats and uses a 32-bit audio DAC with 7.1 analogue channel out. The audio stage uses customized components and the unit can even play the high resolution SACDs via the fast loading mechanism. Standard DVDs gets a quality boost too – thanks to Anchor Bay's ABT 2015 VRS™ video processing, which outputs 1080p from standard material via the HDMI 1.4a port. But as with all Marantz players it's musicality that reins supreme, and to ensure the best from CDs there's a Pure Direct Mode.

Main Features

- 3D compatible
- HDMI 1.4a (3D)
- Plays Blu-ray Disc, DVD, DVD-Audio, SACD and CD
- Supports MP3, WMA, DivX HD, AVCHD and JPEG compatible
- High quality upscaling to 1080p by Anchor Bay ABT2015
- Network streaming for audio and video (DLNA 1.5 certified)
- 32-bit DAC with 7.1ch analogue audio output
- YouTube Leanback support (software upgrade required)
